Fibre Concept Believes on Continuously Intovations with latest technology.

Fibre Concept Pedestrian & Vehicle Grade Manhole Covers are produced with high pressure injection Molding technology using Reinforced grade of poly propylene which is weather, SO 2' Chemical and impact resistant.

Pedestrian grade suitable for low usage area like narrow passageways and overhead tanks.

Vehicle Grade Suitable for Parking Area Where Vehicles are Parked

SIZES	LOAD BEARING CAPACITIES	
	Pedestrian	Vehicle
12x12	250KG	1000KG
18x18	350KG	1000KG
24x24	350KG	1000KG

PEDESTRIAN GRADE

Sizes: 12x12, 18x18, 24x24

Colors: Grey & Black

Features:-

- Rust Proof
- Environment Friendly
- Durable & Long Lasting
- Embedded metallic Stiffener
- Meeting International Standard EN-124
- Safety Lock
- Resistant to Harsh Sewerage Environment
- Loading Capacity 250kg & 350kg

HEAVY DUTY INJECTION MOULDED GRATING

Fiber Concept Heavy Duty Grating are also Produced with High Pressure Injection Molding Technology using reinforced grade of poly propylene which is weather So2 Chemical and Impact Resistant.

FC Grating suitable for Parking Area Swimming Pool and other Places for drainage, Such as, for Rain Drain, Road side and Park/ Ground etc.

Width Sizes	Load Bearing Capacities
5"	5.5 Ton
7"	4.5 Ton
12"	3 Ton

Colors : Black, Ivory & White
Size in width : 5", 7", 12" inches
Height: 1.8" Inch

Features:-

- Rust Proof
- Chemical Resistant
- Economical
- Vehicle Load Bearing Capacity
