AZIZ STEEL

FOUNDATIONS FOR THE FUTURE

ABOUT US

Established in 1984 by Mr. Aziz Ahmad Chaudhry, Aziz Industries is among the oldest steel making units of Pakistan. We are pioneers in developing billets for Grade 60 steels bars. Our experience and institutional knowledge in steel making is unparalleled.

For almost 40 years we have made quality steel billets for all major steel brands of Pakistan and enjoyed their utmost trust. Now we bring the same excellence directly to you.

Aziz Industries has a state-of-the-art technological setup with two 12-ton High-Frequency Induction Furnaces and a versatile Re-Rolling Mill capable of making steel bars ranging from 10mm to 32mm. Alongside, we have the latest in quality control equipment including Optical Emission Spectrometers and Universal Testing Machines.

WE KNOW STEEL LIKE NO ONE ELSE

QUALITY CONTROL

What you measure
is what you get

Driving Principles

Inspection, Control, Assurance

Scrap qualities are sorted into different yards and melted in an Induction Furnace. Impurities are removed, and samples are analyzed in a spectrometer lab to achieve the desired chemical composition. The molten metal is transferred to a Continuous Casting Plant for Billets Production. Billets undergo visual and chemical inspection, with any defects leading to recycling. After production in the Rolling Mill, products undergo a rigorous inspection, receiving lot numbers before storage in the finished product yard. The finished product is then properly tagged and color coded according to quality.

Chemical Analysis Laboratory

Our lab features state-of-the-art Optical Emission Spectrometers from the world's best SPECTRO Germany, enabling us to exercise complete control over the chemical properties of our steel. Accurate testing combined with our institutional knowledge means that we can make any grade of steel that a customer may require.

irfantraders.pk | +92-322-3540656

Mechanical Test Laboratory

Universal Testing Machines are used to ensure the yield, tensile and elongation properties of our steel bars conform to the highest international standards. Every batch of steel is tested multiple times and is graded and color-coded according to observed quality parameters.

THE FIRST SCHEDULE

PS Mark	Article / Process	Pakistan Standard(s)
1	2	3
	Deformed & Plain Carbon-Steel Bars for Concrete Reinforcement (Grade-60) "Aziz Steel" Brand Sizes as per Annex A	QSS: 1879/2021(R)

THE SECOND SCHEDULE

Article / Process	Unit	Marking Fee Per Unit	Mode of Payment
1	2	3	4
Deformed & Plain Carbon-Steel Bars for Concrete Reinforcement (Grade-60) "Aziz Steel" Brand Sizes as per Annex A	Ex-Factory Price	0.1%	Through Bank Draft Quarterly

ACCREDITATIONS

Certification is conditional on maintaining the required performance standards throughout the certified period of registration
The British Assessment Bureau, 30 Tower View, Kings Hill, Kent, ME20 4JY

The management system of Certificate Number **2034845**
Aziz Industries
23 KM, G.T Road, Muridke,, Dist. Sheikhpura, Pakistan
has been assessed and certified as meeting the requirements of

ISO 9001:2015
for the following activities

Manufacturing of MS Billets and MS Bars (Deformed Bars G-40 & G-60) Worldwide

Further clarifications regarding the scope of the certificate and the applicability of requirements may be obtained by consulting the certifier.

Valid from
Initial Certification: 08 August 2023
Latest Issue: 08 August 2023
Expiry Date: 07 August 2024
subject to annual assessments

Authorised by

Mike Tims
Chief Executive Officer
